g) Proposal for Modification of section 2.9.1 of PG Manual

In the past few PG admission cycles, for a few part-time admissions, the following has been observed:

1. An applicant applies for the part-time PG admission, as per the following existing 2.9.1 clause of PG manual.
2. The applicant submits a no-objection certificate from the employer in this regard at the time of submitting the application/ during the admission interview process, where the employer simply states that the employer has no objection in their employee (applicant) pursing a part-time PG program at IIT Kanpur.
3. Based on the admissions' eligibility and selection criteria of IIT Kanpur and the department, the applicant is selected and joins the part-time PG program.
4. However, the employer does not relieve the candidate to finish the required course credits and does not provide full salary to the candidate.
5. Often, in such a case, the candidate is left with no other option but to eventually withdraw from the program.

In this regard, the following modification is proposed so that the employer and the prospective applicant are emphatically well informed of part-time PG admission process at IIT Kanpur, and above such instances are avoided in future.

Abhijeet Lohup 1/8/24

Existing Clause	Proposed modification
2.9.1. The Institute also offers part-time postgraduate programmes leading to the M.Tech. / M.S. by Research/ M.Des./ Ph.D. degrees for professionally employed personnel such as working engineers, scientists and teachers who can, while employed, attend regular classes as per schedule of the Institute. These students will have to give an undertaking endorsed by their employers that they will be attending all classes. The course instructors will have to maintain the attendance record of all part-time students in their courses.	**2.9.1.** The Institute also offers part-time postgraduate programmes leading to the M.Tech. / M.S. by Research/ M.Des./ Ph.D. degrees for professionally employed personnel such as working engineers, scientists and teachers who can, while employed, attend regular classes as per schedule of the Institute. ~~These students will have to give an undertaking endorsed by their employers that they will be attending all classes.~~ The employer must provide undertaking to relieve the candidate to finish required course credits (and pass comprehensive and state-of-the-art for PhD) of respective program as per the institute's schedule, as applicable. The course instructors will have to maintain the attendance record of all part-time students in their courses.

The above modification is forwarded to Senate for approval.

h) Proposal for Modification of section 4.7 of PG Manual

In the recent past, a few PG students have converted their part-time program to full-time, as per the following existing Section 4.7 of PG manual. After conversion to full-time, some of the students have again converted to part-time, as per Section 4.8 of PG manual, which at times, is not desirable, as the selection process for full-time PG programme is often more rigorous as compared to part-time PG programme. Also, the existing Section 4.7 of PG manual does not require the consent/ no-objection from the employer, as a student joining a part-time PG programme is likely to be a working professional. In this regard, the following modification is proposed to avoid such instances. The modification is inspired by the existing Sections 4.6 and 4.8 of the PG manual.

Existing Clause	Proposed modification
4.7. A student admitted to a part-time programme may be allowed to change his/her registration to full-time (regular) studies at the beginning of a semester upon the recommendation of the DPGC and with the approval of the SPGC. For the purpose of determining the maximum period of stay (specified in Section 7.1), one-half of the period spent as a part-time student will be counted.	**4.7.** A student admitted to a part-time programme may be allowed to change his/her registration to full-time (regular) studies at the beginning of a semester upon the recommendation of the DPGC and with the approval of the SPGC. However, the employer of the student must provide no-objection certificate prior to such a conversion. Provision of conversion from part-time to full-time status can be availed of only once by the student during his/her programme. Students in part-time M.Tech./M.S. by Research programme, who have availed this conversion to full-time, are not permitted to change over to full-time Ph.D. programme. Such a change of registration shall be reported to the Senate. Further, conversion of registration from full-time to part-time, as per Section 4.8, shall not be applicable to students, who have once converted from part-time to full-time registration. For the purpose of determining the maximum period of stay (specified in Section 7.1), one-half of the period spent as a part-time student will be counted.

The discussion on the above modification is deferred to the next SPGC meeting.
