d) **Appeal for reinstatement:**

S.No	Roll No	Name	Dept	Prog	Supervisor & DPGC Recommendation	SPGC Recommendation
01	20102034	Pathipaka Santhosh Kumar	CHE	MTech	Recommended	Recommended and forwarded to Senate for final approval.
02	22127266	Harshita Gupta	ECO	PhD	Not Recommended	Recommended for reinstatement, as majority of SPGC members opined that one chance be given to the student, given the medical ordeal that the student has been undergoing. It is strongly advised that the student, if reinstated, should pass the comprehensive exam before beginning of 2024-25-Sem I. The same is forwarded to Senate for final approval.
03	21223265	Subhajit Chakraborty	ES	PhD-MTech	Recommended	Recommended for reinstatement, with MTech degree as exit degree from PhD. The same is forwarded to Senate for final approval.

Any other item with the permission of chair:

Sr. No	Item Description	SPGC Recommendation
1	Increase in PhD Intake	Recommended and forwarded to Senate for further discussion and final approval
2	PhD spot admission process of BTech from non-CFTIs	The proposal was initially drafted by a five member SPGC sub-committee (please refer minutes of 2nd SPGC meeting AY 2023-24), which was first discussed in the 6th SPGC meeting AY 2023-24. Based on the feedback from the departments, the sub-committee revised the proposal, which was discussed in the SPGC meeting. SPGC members opined that the proposal needs further revision regarding the modality and cutoffs/ thresholds of the admission process between spot and regular admission rounds. The sub-committee's convener is requested to revise the same, and then this revised proposal will be forwarded to Senate for further discussion.
3	Extension Request for PhD Admission Offer Letter- Zewudu Wondimagegne - MSE	Despite not recommended by DPGC, SPGC members opined that the student's request to join IITK for PhD in 2024-25 Sem I, based on the offer received in 2023-24 Sem I, be recommended as a special case, given the difficult political and war situation in Ethiopia (the student is a foreign national from Ethiopia). The same is forwarded to Senate for final approval.

4	Numbering of PG courses of different departments/ centres	With the substantial increase in the faculty intake in the last few years, several new PG level courses have been floated, in addition to the already existing courses. This has led to different levels of course numbers across the institute for PG courses. In fact, in a few large departments, getting a course number for a new course is gradually becoming difficult due to depletion of course number series, such as XYZ698, XYZ798, etc. Also, some of the existing PG level courses have not been floated in the last few semesters. The SPGC members discussed this issue. In this regard, the following members have volunteered to be part of a SPGC sub-committee. 1- Prof. J Ram Kumar (DPGC DES) – **Convener** 2- Prof. Chinmoy Kolay (DPGC CE) - Member 3- Prof. Subhajit Dutta (DPGC MTH) - Member 4- Prof. Sagar Chakraborty (DPGC PHY) – Member SPGC thanks the above members for their volunteer ship and requests the committee to submit an action plan for possible resolution of this issue at the earliest.
5	PGARC implementation: Regarding DMC	Based on the inputs of the PGARC implementation committee, SPGC recommends these changes regarding DMC, and the same is reported to Senate as a noting item.
6	DMC refinement format- By Student Nominee	SPGC members welcomed the suggestions from the SPGC student representatives regarding the refinements in DMC. However, SPGC members opined that the student representatives should work towards the practical implementation of the refinement, which shall be discussed further in the next SPGC meeting(s).
7	Constitution of the PG-APEC Committee – 2023-24-II	As per new PGARC, the following members are requested to be part of PG APEC for 2023-24 Sem II 1- Prof. Vishal Agarwal (CHE) – **Convener** 2- Prof. Piyush Rai (CSE) - Member 3- Prof. Sudhanshu S Singh (MSE) - Member 4- Prof. Sagar Chakraborty (PHY) – Member 5- Prof. Sharvari Nadkarni Ghosh – Member The Senate Chair is requested to please approve this committee.
8	Discuss the issuance of a warning letter to Ph.D. students who have not completed their comprehensive exams and State of the Art (SOTA) within the deadline specified in the Postgraduate (PG) Manual.	It was noticed in the beginning of 2023-24 Sem II by the PG office that there are several PhD students in the institute, who have not completed their comprehensive or SOTA within the deadline, as per PG manual. In this regard, SPGC members concurrently agreed that warning letters should be issued to the PhD students, who have not timely completed their comprehensive exam and SOTA, and have also not requested for any extension with valid reasons. As per the PG manual, a PhD student failing to clear the

		comprehensive exam or SOTA on time, should be terminated. The issuance of the above warning letter will serve the following purposes: 1- provide a cushion time before termination 2- a strict warning to the student that failing to clear the above exams, after the natural deadline and with no extension request, within the stipulated time (typically six months after the deadline) will result in termination of the PhD program 3- likely help the PhD student to get back on track and deliver open seminar by 9th semester as per new PGARC The above proposal is forwarded to Senate for further discussion and final approval.
9	Withdrawal from MTech and continuation as PhD Student. – Mr. Anjan Roy (20218262)- BSBE Student joined in PhD program in 2020 and **chose PhD exit option with MTech last semester (2023-24-I).**	SPGC does not recommend the request as the student has already chosen for a MTech exit from PhD, duly recommended by the supervisor, DPGC, SPGC, and Senate. Additionally, the student was supposed to complete the MTech requirement by March 26, 2024 (6 months from the issue of the order).
10	Issue of doing XYZ888 (Intro to Professional and Communication) for sponsored (working professionals) PhDs (XYZ refers to the department code)	As per new PGARC, XYZ888 (Intro to Professional and Communication), which is a non-zero credit course, should be done by all Y23 and later batch PhD students for at least one semester as part of their graduation requirement. However, very few departments were able to offer this course in 2023-24-Sem I and 2023-24-Sem II. As a result, some sponsored PhD students will not be able to do XYZ888 in person, as they must return to their parent organization in 2024-25 Sem I, after one year leave period during which they are expected to successfully complete other courses. In this regard, SPGC members agreed that for such cases, a special exemption (for not doing XYZ888) on a case to case basis may be given as the sponsored PhD students are already experienced and working professionals, and have already been practicing the contents/ learnings of XYZ888 in their parent or previous organizations. Also, this exemption will be given by SPGC only after the request from the sponsored PhD student, followed by the recommendations of the thesis supervisor and DPGC. This proposal is forwarded to Senate for further discussion and final approval.
